

Epidemic Scorecard Assignment for Health 10 Mr. Brown.

1. Read and Study the [article](#) from the New York Times published in April of 2003.

2. Do some online study and see if you can find some more current numbers for the diseases in the article.

Tuberculosis -
Malaria-
Hepatitis B-
Aids-
Measles-
Dengue Fever-
Yellow Fever-
Influenza-
Sars-

3. Then find the same information for Ebola!

3. Then Prepare a google document in the following way:

First Page - List the diseases and the more current statistics that you can find. If you find an interesting image in your research copy a link in your document to that image.

Second Page - Let your inner artist fly! See if you can illustrate what you find about the rates of these diseases with a graphic that shows the relative rates of the diseases.

4. Share the document with Mr.Brown: "RHS-MrBrown's10GradeHealth"
jbrown.RPS@ridgewood.k12.nj.us

Subject line must say: Last name-EpidemicScorecard-Per(YourClassPeriod)
example subject line: Brown-EpidemicScorecard-Per4

5. MrBrown will project some of the pages and ask you to present your ideas.
